## INVITATION

WWF and Sabanci University Istanbul Policy Center  
invite you to attend an important event at COP23

# Just Energy Transition in Emerging Economies

Opportunities & challenges for disruptive changes in energy markets

## SYNOPSIS

- A just energy transition is a broad and participatory social process that seeks to reconcile economic development with energy sustainability and social dignity, particularly for workers.
- The objective of this panel is to discuss the sectoral, local and national challenges and responses associated with this just energy transition in emerging economies.
- This panel will focus on macroeconomic, sectoral, regional and/or enterprise level policies implemented by state and non-state actors to enable the just energy transition.
